The User Roles will control what type of actions can be taken, either Edit or View.

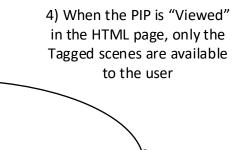

Indiana vs Penn State Jan 02, 202

3) When we save the PIP to the Linux server, all the edits made in Win10 app are included.

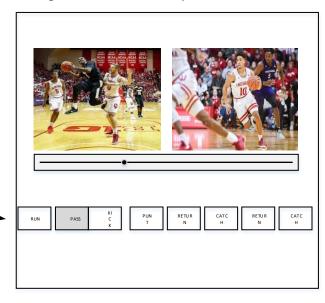

Registered User Desktop or Mobile Device

The Edit App works with all the video files. In this example, there may be several hours of video in a PIP created during a basketball game.

2) Video analyst use the tagging app to select the highlights that we want to share with the players and coaches.

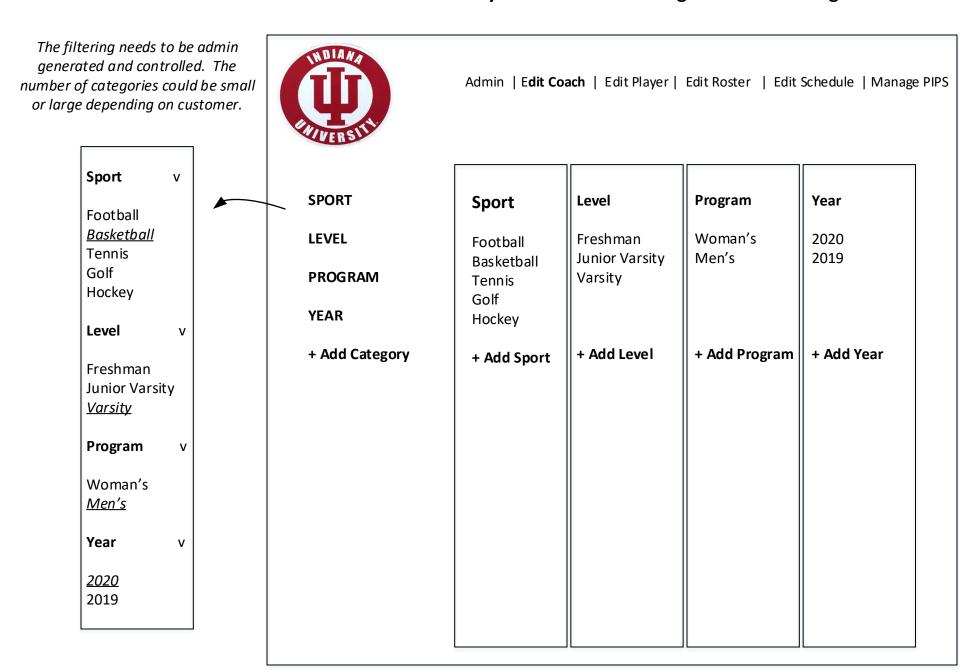

The HTML version of the PIP may only have 10 to 15 important scenes totaling about 5 minutes of video for review. This is why we want the Streaming support to only allow selected scenes to be available.

We also need to share some content with 3) Share PIP to users that are not able to access the local Cloud Based Server Linux server; like family; fans; other coaches. Upload these the cloud for a short period of time (maybe a week or two).
